NOTE FOR: Director of Logistics

John,

I am extremely concerned that the recent inspection of the cafeteria is going to get blown all out of proportion. For example, the so called mice in the cafeteria was, in fact, a pet white mouse which was in a box. One employee brought the mouse to give to another employee and brought the box into the ladies room rather than leave it in the car because it was extremely cold. We do not have mice in the cafeteria! There were some leaky faucets and things that needed to be corrected and, in fact, have already been corrected. The cafeteria has been reinspected and received a passing score.

This incident has caused a great deal of concern on my part. I will be shortly forwarding a proposal to take a more active interest in the cafeteria, notwithstanding the fact that this is GSA's responsibility.
